## About CVGhana

Three decades of trusted commodity trading, connecting Ghana's finest producers to the world.

Commodities Venture Ghana (CVG) is a leading Accra-based commodity trading and export company. Since our founding in 1996, we have built an extensive network of verified suppliers, cooperatives, and farming communities across Ghana to deliver premium agricultural products, natural ingredients, processed foods, seafood, timber, minerals, and specialty African crafts to international markets.

Our team manages the full export journey from sourcing and quality grading to logistics, documentation, and regulatory compliance. With deep expertise in Ghanaian commodities and long-standing buyer relationships spanning five continents, we serve as a trusted bridge between Africa's producers and the world's markets.

Whether you need a single sample shipment or a multi-year offtake agreement, CVGhana delivers the reliability, transparency, and quality assurance that global trade demands.

# Export Services

End-to-end commodity export services from sourcing through final delivery.

## Sourcing & Procurement 01

We maintain verified supplier networks across all major agricultural regions in Ghana. Our procurement team manages seasonal planning, volume aggregation, and supplier qualification to ensure consistent supply for international buyers. From smallholder cooperatives to large-scale producers, we source at origin with full traceability.

## Quality Control 02

Every shipment undergoes rigorous grading, laboratory testing, and inspection. We ensure products meet international standards including moisture content, aflatoxin levels, microbial testing, and grade classification. Our QC process includes pre-shipment inspections and independent third-party certification when required.

## Logistics & Shipping 03

Full logistics management from warehouse to port and onward to the buyer's destination. We coordinate container booking, freight forwarding, cold-chain management for perishable goods, and insurance. Our partnerships with leading shipping lines enable competitive rates and reliable transit times.

## Documentation Support 04

We handle all export documentation: phytosanitary certificates, certificates of origin, bill of lading, customs declarations, and destination-specific compliance paperwork. Our documentation team ensures smooth customs clearance at both origin and destination ports.

## Market Intelligence 05

Stay ahead of market dynamics with our pricing insights, demand trend analysis, and seasonal availability forecasts. We provide buyers with actionable intelligence on Ghanaian commodity markets including harvest projections, price benchmarks, and regulatory changes that may impact trade.

## Partnership Development 06

We build long-term trade relationships through structured offtake agreements, co-branded export programs, and dedicated supply chain partnerships. Whether you need a one-time trial shipment or a multi-year supply contract, we structure deals that create mutual value.

From a single sample to a full container — we manage every step of your export journey.

Contact our trade desk to discuss your requirements.

# Markets We Serve

Established trade routes and buyer relationships across five continents.

## North America

Dedicated USA trade desk (usa@cvghana.com) serving food manufacturers, cosmetics companies, and specialty importers across the United States and Canada. Key commodities: cocoa products, shea butter, cashew nuts, and African superfoods.

## Europe

Strong presence across the UK, Germany, France, Netherlands, and Belgium. We support EU regulatory compliance including phytosanitary requirements and organic certifications. Key commodities: cocoa, shea, tropical fruits, and timber products.

## Asia-Pacific

Growing trade partnerships with buyers in Japan, China, South Korea, and Australia. Specialized in meeting Asian market specifications for cocoa, cashew, and natural ingredients used in food processing and cosmetics manufacturing.

## Middle East

Active exports to UAE, Saudi Arabia, and Qatar. Focus on agricultural commodities, processed foods, and specialty products for the region's growing African food import sector and cosmetic ingredient demand.

## Intra-Africa Trade

Under the African Continental Free Trade Area (AfCFTA), we are expanding regional trade with Nigeria, South Africa, Kenya, and other African markets. CVGhana is positioned to facilitate the growing intra-African commodity trade, leveraging our Accra hub and deep understanding of West African supply chains to serve buyers across the continent.

YEARS OF TRADE

# Quality Assurance

Rigorous quality control at every stage of the supply chain.

### Supplier Verification

All suppliers undergo a comprehensive qualification process including farm inspections, production capacity assessment, and historical quality record review before joining our sourcing network.

### Laboratory Testing

Products are tested for moisture content, aflatoxin levels, microbiological safety, heavy metals, and grade specifications at accredited laboratories before shipment.

### Pre-Shipment Inspection

Every export container undergoes visual inspection, weight verification, and sampling before sealing. Independent third-party inspections are arranged on request.

### Traceability

Full supply chain traceability from farm to port. Each shipment is documented with lot numbers, origin details, and test certificates for buyer verification.

Phytosanitary Certified

Organic Fair Trade

Kimberley Process (Diamonds)

Cold Chain Certified

Export Permit Compliance

HACCP Standards

## Sustainability Commitment

At CVGhana, responsible trade is not optional — it is fundamental to how we operate. We are committed to practices that benefit communities, protect the environment, and build sustainable supply chains for the long term.

### Farmer Livelihoods

Fair pricing, long-term contracts, and capacity building for smallholder farmers and cooperatives.

### Environmental Care

Support for sustainable farming practices, reduced waste, and responsible forestry management.

### Community Impact

Trade that creates jobs, supports local economies, and contributes to rural development in Ghana.

## Leadership Team

Experienced operators across sourcing, quality, logistics, and global trade.

### Peter M. Plange

#### MANAGING DIRECTOR

Founder and Managing Director of CVGhana since 1996. Peter brings three decades of experience in Ghanaian commodity trading and has built the company's international buyer network spanning 51+ countries.

### Kwame Asante

#### OPERATIONS

Oversees day-to-day operations including supplier management, order fulfillment, and warehouse coordination. Ensures seamless execution from order placement through delivery.

### Abena Sarpong

#### QUALITY & COMPLIANCE

Leads quality control, laboratory testing programs, and regulatory compliance. Ensures all exports meet international food safety, phytosanitary, and destination-market standards.

### Kofi Mensah

#### EXPORT LOGISTICS

Manages freight, shipping coordination, port operations, and cold-chain logistics. Kofi's expertise ensures on-time delivery and cost-effective routing for all export shipments.

## How We Work With You

1

### Inquiry & Consultation

Share your commodity requirements, volumes, and destination. Our trade desk responds with specifications, availability, and pricing.

2

### Sample & Evaluation

Order product samples through our online portal. Test quality, grade, and suitability before committing to bulk volumes.

3

### Contract & Deposit

Agree on terms with a 60% deposit. We begin sourcing, quality grading, and preparing your shipment documentation.

4

### Ship & Deliver

Balance settled before shipment. Full logistics management from warehouse to your port with complete documentation.

## Let's Build a Trade Partnership

Whether you're sourcing a single commodity or building a diversified supply chain from Ghana, our team is ready to support your business.
